

Hydrotech Warranty Offerings

With Monolithic Membrane 6125[®] / 6125[®] EV

WATERPROOFING:

TYPE OF WARRANTY	WATERTIGHTNESS				ULTIMATE ASSEMBLY [®]		
DURATION (Years)	5	10	15	20	5	10	15

ROOFING:

TYPE OF WARRANTY	WATERTIGHTNESS				ULTIMATE/GARDEN ROOF [®] ASSEMBLY			
DURATION (Years)	5	10	15	20	5	10	15	20

Terms:

1. Material warranties are available for terms up to 20 years.
2. Thermal warranties are available for Dow HI-40, 60 and 100 Dow STYROFOAM Roofmate™ for up to 20 years.
3. Wind resistance warranty is available for Dow STYROFOAM in roofing applications; up to 70 mph gust wind speed; ballast review is required.
4. Maximum warranty on Pavers is 15 years.
5. Maximum warranty on Garden Roof components is 20 years.
6. Plant coverage warranties are available for 2 years when part of a complete Garden Roof Assembly.
7. With respect to the Ultimate™ or Garden Roof Assembly™ warranty, when two separate contractors are involved, Hydrotech will issue the required warranty (upon substantial completion of the work) through our "authorized applicators" responsible for the waterproofing/roofing membrane.
8. Hydrotech's warranty includes removal and replacement of overburden supplied by Hydrotech if a warranted repair to the membrane is required.

HYDROFLEX PROTECTION SHEET

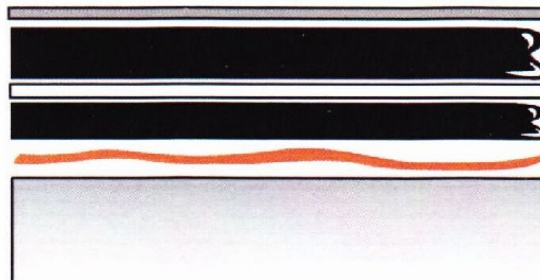

MM6125 (3 mm)

FLEX-FLASH F REINFORCEMENT

MM6125 (2 mm)

SURFACE CONDITIONER

APPROVED SUBSTRATE

MM6125-FR (FABRIC REINFORCED ASSEMBLY)

Consists of one coat of membrane at a thickness of 2 mm, into which is embedded Flex-Flash F, a spunbonded polyester fabric. A second coat of membrane is then applied over the fabric at 3 mm minimum, encapsulating the fabric between the two layers of membrane. Hydroflex protection sheet is then embedded into the membrane.

For further detailed information regarding Hydrotech's warranty programs, including terms and conditions, contact your Hydrotech local representative or call Hydrotech
